### SOCIAL AND PERSONAL

#### Parent-Teachers Meeting.

The February meeting of the Parent-Teachers Association of the Model School, was held Friday in the training school building. The president, Mrs. Marion Dunn, president, and several important matters of business were discussed. The report of the committee on placing signs of warning in the school zone to drivers of automobiles, requesting them to drive slowly, as a precaution against accident to the children, was heard and accepted, and the committee was instructed to have signs placed as soon as possible.

After the business session, a most delightful and well prepared program was given. The first number was a piano solo by Miss Sara Luxon of the Model School. This was beautifully executed.

Miss Rucie Miller followed with a reading, "The Giant's Garden." Miss Miller is the expression teacher and quite captivated her audience by her charm of manner and voice and her interesting way of telling the story.

Mrs. George Goodloe was next on the program with a splendid talk on "The Visiting Teacher," showing how the problems of the home and the school room might be, in a degree, solved by the teacher knowing the condition of the home and the environment of the pupil. This was a practical and thoughtful talk.

Mrs. E. T. Burnam closed the program with a most enlightening and excellent paper on, "The use of Good Pictures in the Training of the Child." This paper showed unusual thought and study and was made more interesting with pictures which Mrs. Burnam used to illustrate her points. She showed a thorough knowledge of her subject, and her paper was considered one of the best of the year. At the close of this paper the meeting adjourned.

Mr. D. P. Chaney, of Irvine, was a visitor here Monday.

### The Versatile Mode in Suits

THE versatile mode presents us with conflicting silhouettes in suits and a variety of styles to choose from, and leaves us to pronounce our own judgment on them. The straight and the flaring box-coat seem destined to a great success; they are developed with many ingenious variations in lines and trimmings, and have a youthfulness of style that is a great asset. But the box coat has rivals that boast the charm of novelty, in suits that have rippling peplums on their coats, and in others that have the appearance of frocks. A few things are assured; among them the success of the flaring coat sleeve on box coats, the continued use of embroidery, the vogue of slender lines and straight skirts.

Two suits very different from each other in outline, invite comparison, in the picture above. One has a straight box coat and the other a coat with a rippling peplum. The first suit will find many admirers among women who are striving to achieve the appearance of slenderness, and the other

will appeal to those who must make up for a lack of curves in figures a little too slender. The woman of normal weight does not have to concern herself with these things, but only to consider which style is most becoming. The suit at the left has a high waistline and is embellished with a little embroidery matching it in color. The coat has a single fastening at the bust line in link buttons, and they form the finish for the plain coat sleeve.

The box coat employs silk braid, edged with a narrow plaiting of ribbon and bone buttons for decoration. A tie at the front of the collar provides a pretty new touch, and the sleeves are relieved from entire plainness by three buttons and buttonholes at the wrists. Neither of these suits accepts the flaring sleeve, but both adopt the straight skirt.
